

MAGGIE LI

CLASSICAL FENG SHUI MASTER | COACH | SPEAKER | PODCASTER

Maggie Li is a Certified Feng Shui Master with the International Council of Feng Shui Masters, trained in a 20-generation lineage tracing back to the Forbidden City of Beijing. She is the founder of The REN Method, a classical feng shui coaching practice that teaches people how clear the energetic blockers in their homes so they can achieve their highest purpose in this lifetime.

Before The REN Method, Maggie spent over a decade as Chief of Staff inside top San Francisco technology companies, scaling organizations from five people to hundreds. She knows what it takes to build systems, lead through chaos, and transform how people work and live. That operational rigor is exactly what she brings to feng shui: not mysticism, but a battle-tested framework for aligning your environment with the life you want.

Maggie is also a community builder at her core. For eleven years she led a global Burning Man camp of tech leaders, artists and creatives, and she has spent her career convening founders, executives, and artists around a shared table. As a master trainer and coach, she has guided countless people to real, measurable transformation in their homes, their businesses, and their sense of self.
