YOUR CLASSICAL FENG SHUI TRIGRAM

Congratulations, you are Trigram 9

LI ☲ 火 · FIRE · EAST GROUP

Fire is The Visionary.

Radiant fire that lights the way. You see the vision before anyone else and move people toward it. Your warmth and clarity turn ideas into momentum.

Let's Activate Your Space →

Hello,

Here is your personal Trigram profile. These are the colors to wear and surround yourself with, and the directions that support you at home.

IMPORTANT, YOU ALREADY ARE FIRE

You carry Fire within you, so you do not need red in your home. **Lead with green**, which feeds your Fire, and keep red to small accents only, never focal points (red flowers, red candles). Do not cover your space in red, it activates restless, negative energy.

WEAR & SURROUND YOURSELF

Your best colors

Vermilion

Red

Crimson

Maroon

Red is your element, but you already hold Fire inside, so you do not need much of it. Let green lead your space and keep red to accents only, never focal points (red flowers, red candles), since too much red activates negative energy in your home.

BRING THESE IN

Colors that support you

Light Green

Green

Sage

Forest

Green feeds your Fire and should lead, use more green than red. Keep red to accents only, never focal points, like red flowers or red candles, since too much red activates negative energy in your home.
